

Decision

IF YOU HAVE FLU SYMPTOMS,

the following table will help you decide what is best for you and your family.

ADULTS OR CHILDREN

I don't have a fever (less than 39 °C or 102 °F),
but I do have the following symptoms:

- Blocked nose
- Runny nose
- Cough

ADULTS OR CHILDREN

I have a sudden fever (higher than 39 °C or 102 °F)
as well as the following symptoms:

- Sudden cough
- Sore throat
- Muscle or joint pain
- Extreme fatigue
- Headache

ADULTS OR CHILDREN

I have diarrhea but no other symptoms associated with gastroenteritis, and my general state of health is good.

ADULTS OR CHILDREN

I have had diarrhea
